## Panel heaters

### Key features

- Single mechanical thermostat, stand alone heating
- Excellent value and simple to operate
- Robust construction and easy to install
- Compact - takes up minimal wall space
- Hinged wall mounting bracket to allow easy access for cleaning and decorating
- Ideal for conservatories, extensions, hotels and student accommodation

### The range

A simple and flexible way to heat your home, the slim and stylish Newera Plus range of panel heaters provides you with comfortable warmth, whatever the size and layout of your rooms.

Compact and easy to use, these models are ideal as an additional heater anywhere in the home or to heat an extension or conservatory. Easy to install, they are fitted with a handy wall mounting bracket that allows them to be tilted forward, making it simple to clean and decorate behind them.

The built-in hydraulic thermostat and separate on/off switch of the Newera Plus means it can be used either in isolation or as part of a linked heating system with individual controls the perfect solution for hotels or student accommodation.

### Technical specification

- Elements - finned, metal sheathed mineral filled type
- Thermostat - single mechanical
- Protection - two level thermal safety overheat
- Supply - 230/240V AC single phase
